

GOODS RECEIPT AUTOMATION

OPTIMIZED HELPS LARGEST FAMILY-OWNED COFFEE BRAND WITH IMPROVED INVENTORY MANAGEMENT

Largest Family-Owned and Operated Coffee Brand Automates GR Process for Cost Savings

MANUFACTURING / FOOD & BEVERAGE

The client, the world's largest family-owned and operated retail coffee brand relied on a manual process of goods receipt that was time and cost-intensive.

Accelerated Architecture for Manufacturing Intelligence (AMI), Optimized Solutions' flagship digital transformation technological framework, intergrated with IoT sensors to automate the process of goods receipt.

Specifically, we:

- 1 Provided real-time updates of inbound inventory items
- 2 Automated the warehouse for production/process orders
- 3 Enhanced efficiency of warehouse, plant, field, and accounts payable personnel
- 4 Reduced the GR/IR reconciliation errors
- 5 Automated service entry sheet processing

1
Minimized manual errors

2
Increased productivity of field and accounts payable personnel

3
Improved overall service procurement reconciliation to reduce operational costs

PROJECT SUMMARY

NAME
Connected Assets

MARKET
MANUFACTURING / FOOD & BEVERAGE

LOCATION
Midwest, U.S.A

VALUE CHAIN SOLUTION
Efficiency & Agility (Logistics)

We built the AMI architecture ground up by closely observing the currently available DX solutions and honed it to provide the best-of-the-breed solution for seamless, clear and precise intelligence that makes for strategic decision making and that is suprisingly cost and time effective.

~ Rakesh Naidu, Executive VP, Optimized Solutions
